POSITION: Trimble Layout Technician

Big State Electric, Ltd. • Full-time • Austin, Texas, United States (On-site)

Department: Field Operations / VDC

Reports to: Project Manager / VDC Lead

Role Description

Big State Electric is seeking a detail-oriented and tech-savvy **Trimble Layout Technician** to join our growing field technology team. This role is critical in ensuring precise layout and positioning of electrical systems using the Trimble Robotic Total Station (RTS) and FieldLink software.

Qualifications

Experience operating Trimble RTS not required; we are willing to train the right candidate.

- Strong attention to detail, accuracy, and process discipline
- Familiarity reading prints and layout drawings
- Able to carry equipment up to 50# and work in a variety of field conditions
- Excellent communication and teamwork skills
- Valid driver's license and willingness to travel between job sites

Why Big State?

Big State Electric, Ltd. Is highly-respected leader in the electrical and technology industry. We strive to continuously improve our efficiency and utilize the most up-to-date technology available in the field.

- Opportunity to grow with a cutting-edge construction tech team
- Hands-on experience with industry-leading layout equipment
- Collaborate on high-impact, high-visibility projects
- Access to training, SOP development, and mentorship in a rapidly growing field
